X

A web designer is a creative professional responsible for creating and redesigning the content and layout of websites. Web designers are required to meet clients and users to discuss the needs and goals of their clients. To create graphics, colors, and fonts, web designers usually use HTML coding to alter the website's layout. Web designers must build their portfolio by taking on unique projects for themselves and the people they know.

Take a few minutes to create or upgrade your resume. Browse through our resume examples to identify the best way to word your resume. [Then choose from 10+ resume templates to create your Web Designer resume.](#)

Web Designer Traits
